

Tactical Chorus

2 DAY COURSE

For Intelligence Analysts,
Researchers & Investigators

This course provides comprehensive training on Chorus Analyse. Participants become expert users through working on an investigation with multiple data and intelligence feeds.

This course is delivered by our accredited training partner, Cloudbreak Analysis.

Training Style

This course is composed of a series of informative lectures, demonstrations, and an extended exercise. The course is delivered by a Chorus Analyse expert with an intelligence analysis background.

Learning Outcomes

Prerequisites
Basic IT literacy

Load data and manage exceptions

Understand the attribution features of Chorus and differentiate between subjects and nominals

Map out social networks using Chorus

Conduct complex location analysis on multiple subjects of interest

Merge sessions and utilise Chorus to find links across multiple investigations

Effectively navigate and customise Chorus

Analyse single subjects of interest, identifying pattern of life and contacts

Sanitise and share Chorus products

Identify SIM and device swapping/sharing, and bulk SIM purchases
